T

can you list the process deployed to boomi test enviornment

I'll help you check the deployment status in the Boomi test environment. Let me retrieve that information for you.

queryDeploymentStatus

▼

Here's a list of the processes deployed to the Boomi test environment:

- Process ID:** a54588a6-b0d6-49ec-9d68-d1e6c29de431
 - Latest Version: 6
 - Notes: "property update"
 - Deployed On: April 18, 2025
 - Deployed By: tapash.bishoi@craneww.com
 - Component Type: process
 - Previous versions included fixes for transactions, error path updates, and folder creation

2. Trading Partner Group ID: 6d90d5b0-0cd4-40ef-b197-d7ee776484a8

- Latest Version: 5
- Deployed On: April 19, 2025
- Deployed By: tapash.bishoi@craneww.com
- Component Type: tpgroup
- Initial deployment note: "EDI_X12_AS2_Grp"

Both components have had multiple iterations deployed throughout April 2025, with the most recent deployments occurring on April 18th and 19th.

T can you let me know compoent names

I don't have the component names directly from the deployment data that was returned. The query results only show component IDs rather than descriptive names. Let me check if there's another way to get this information for you.

From the data we have, I can see:

1. Component ID: a54588a6-b0d6-49ec-9d68-d1e6c29de431
 - Component Type: process
 - The only note that might indicate a name is from the first deployment: "PKG V1"
2. Component ID: 6d90d5b0-0cd4-40ef-b197-d7ee776484a8
 - Component Type: tpgroup
 - This component has a note in its first deployment: "EDI_X12_AS2_Grp" which appears to be its name

To get the actual component names, you would need to query the Boomi API differently or check the Boomi AtomSphere platform directly, as the deployment status information doesn't include the formal component names beyond what might be inferred from the deployment notes.

Would you like me to suggest how you could retrieve the complete component names from the Boomi platform?

create a report for me on deployed process and process groups

Boomi Test Environment Deployment Report

Generated on: April 23, 2025

Environment ID: f00e7c25-3dcd-432d-921d-87d9b9681fc2

1. Summary of Deployed Components

Component Type	Component ID	Latest Version	Deployment Date	Deployed By
Process	a54588a6-b0d6-49ec-9d68-d1e6c29de431	6	2025-04-18	tapash.bishoi@cranewww.com
Trading Partner Group	6d90d5b0-0cd4-40ef-b197-d7ee776484a8	5	2025-04-19	tapash.bishoi@cranewww.com

2. Process Deployment Details

Process: a54588a6-b0d6-49ec-9d68-d1e6c29de431

Inferred Name: PKG V1

Version	Deployment Date	Notes	Deployed By
6	2025-04-18 13:57:55	property update	tapash.bishoi@craneww.com
5	2025-04-18 13:43:52	(no notes)	tapash.bishoi@craneww.com
4	2025-04-10 20:59:15	ERROR path update	tapash.bishoi@craneww.com
3	2025-04-10 20:02:04	fix for transaction	tapash.bishoi@craneww.com
2	2025-04-10 19:45:11	create folder if does not exists	tapash.bishoi@craneww.com
1	2025-04-10 16:13:42	PKG V1	tapash.bishoi@craneww.com

3. Trading Partner Group Deployment Details

Trading Partner Group: 6d90d5b0-0cd4-40ef-b197-d7ee776484a8

Inferred Name: EDI_X12_AS2_Grp

Version	Deployment Date	Notes	Deployed By
5	2025-04-19 02:58:15	(no notes)	tapash.bishoi@cranewww.com
4	2025-04-18 14:03:41	(no notes)	tapash.bishoi@cranewww.com
3	2025-04-18 13:51:13	(no notes)	tapash.bishoi@cranewww.com
2	2025-04-14 21:20:34	test	tapash.bishoi@cranewww.com
1	2025-04-10 16:28:05	EDI_X12_AS2_Grp	tapash.bishoi@cranewww.com

4. Deployment Trends

- Both components were initially deployed on April 10, 2025
- The process component had several updates on April 10th focusing on folder creation, transaction fixes, and error path updates
- Most recent updates occurred between April 18-19, 2025
- All deployments were performed by the same user (tapash.bishoi@cranewww.com)
- The Trading Partner Group saw more recent activity with its latest deployment on April 19, 2025

5. Notes

- Component names are inferred from deployment notes as they are not directly provided in the deployment status data
- None of the components are marked as "current" in the system
- Further details about the specific functions of these components would require additional queries or direct access to the Boomi AtomSphere platform
